

The Barbless Hook

**December
2013**

Editor: Tom Vargas

President's Message

Daniel Kitts

There is the distinct chill of winter in the air, Thanksgiving is past and the Christmas Holidays will soon be with us. Even with all that there are still some great fishing opportunities to be had albeit a little bit chillier. There are the stripers in the Delta, Steelhead in the Feather and many of the streams and rivers are open year around. In addition there are opportunities in the local reservoirs so don't let all that experience and knowledge you've gained this year go stale. Get out and enjoy!

And speaking of fishing... I understand the Trinity trip was enjoyed by all 16 TVFF members who went. Weather and fishing was great but the catching was a little tough with the low clear water. Thank you to Fish Meister Bob **McCollum** for putting together another great Trinity Outing. Before we know it we'll be into the heart of the 2014 fishing season so now is the time to think about an outing trip you'd like to go on and maybe even consider being a Fish Meister for one. If you're a bit intimidated about jumping in and doing one alone talk to the outings Chair, **Hal Wilson**, about how easy it is or offer to co Meister a trip with someone who has had previous experience.

At the December general meeting we will be electing the Board Officers for 2014. The nominations are included in this newsletter and watch for an e-mail from **Kelly Ng** with the list of the officers and Committer Chairs nominations.

Russ O'Brien with a nice Trinity River steelhead from the November club outing

Remember to send your fishing pictures to the editor!

Presidents message, continued from page 1

Jim Broadbent just finished his annual Fly Tying Basics class with 7 participants. And speaking of Fly Tying our annual fund raising auction will be here before you know it in April and the flies auctioned off are one of the hottest items of the event. With the cooler weather this would be a great time to take stock of what you need to tie for next year and sit down next to the roaring fire and tie them up. AND while you're at it you can tie up some extra for the Auction and the monthly FliRaffle.

Last month's raffle was a significant improvement over previous months and I know that **Gary Phillips** is working hard to bring you items that will keep you participating. Please don't be shy and continue giving us your feedback on what you like and suggestions for improvements. Check the newsletter for the highlights on what to expect at December's meeting. At November's meeting new member **Kevin Berry** won the Raffle Board for the Sage RP rod donated by **George Allen**.

We want to welcome all the new members to TVFF and look for the listing in the newsletter of the new members in the last couple of months. Be sure to introduce yourselves. We apologize if we've missed anyone but this is something new for us and it is a work in progress.

And Remember:

The true fisherman approaches the first day of fishing season with all the sense of wonder and awe of a child approaching Christmas. – Robert Traver

Daniel

**Don't miss out on these great December raffle items:
Gary Phillips:**

\$159 10wt four piece Cabela's fly rod.

\$60 Albright GP 9/10 reel

\$60 Fishing chest pack.

\$90 fishing net

See you at the meeting!

NOTE: The January Meeting will be moved to Thursday, January 9th

December Program

Richard Tarbell

At 8:00 o'clock, **Greg Vinci**, of California-FlyFishing.com will speak on the following subject:

American River Steelhead fishery; 'from the first riffle to the hatchery'.

Biography

After twenty two years as the owner of Sierra Pacific Products where he innovated many of the popular fly fishing accessories available on the market today, Greg Vinci has been able to re-establish a relationship with his first loves, writing and photography. His work can be now seen in many fly fishing and outdoor magazines. He also has kept his foot in the door, so to speak, by continuing to develop fly tackle product lines on a consultancy basis. In 2011 his product *Insta-Set Indicators* was selected by Field & Stream magazine as the *best fly tackle accessory of the year!* One of his most recent endeavors has been to develop the California-FlyFishing.com web site which is a portal to California's most popular waters.

TVFF Dues for 2014 are due!

Tom Fessenden

TVFF club dues for this coming year are \$40 (\$35 if paid on or before the club meeting on February 6, 2014). A membership covers you and all family members living at home. All are encouraged to participate in club outings however, liability release signatures are required of those 18 or over.

Checks or cash can be given to our treasurer, Russ George, or our membership coordinator Tom Fessenden, at any regular club meeting.

Checks made out to TVFF can also be mailed to :

Tri-Valley Fly Fishers
PO Box 2358
Livermore, CA 94551

OUTINGS AND EVENTS

Hal Wilson

Below is the tentative/probable outing schedule based on the best information available at the time of publication. This schedule is subject to change. Please consider being the fishmaster in 2013 and contact me if you're interested. Here is a link to the sign-up sheet: http://www.tri-valleyflyfishers.org/TVFF_Outting_Signup_Form.pdf

Video Library

Richard Tarbell

Think about the Tri-Valley Fly Fishers Video Library for the December 5th meeting. The Library has 150 DVD titles available to members at each monthly meeting. The DVD's are checked out from a list of titles that cover all elements and locations of the sport of fly fishing. Included are: equipment discussion on gear and line set-up, technique, locations, bugs, fly tying, how to identify and work streams and stillwater hotspots, and how to position on them to catch fish. Fishing spots that vary from salt-water, delta, rivers and streams and lakes, as well as species in those fisheries. The variety of DVD's is continuously up-dated and offer viewing that is easily a better choice than television programming. If you've had a DVD checked-out from the Library for while, December could be a good time to return it.

Delta Striper Outing

December 7, 2013

Tom Vargas

As TVFF Fishmasters, Rick Mikla and I will lead the striper outing on Saturday, December 7th. This is a great opportunity to experience hard pulling, double digit freshwater fish on fly gear. We will fish the Southern bays of Discovery Bay and plan to launch out of Orwood Resort by 7:00AM. You should arrive at least ½ hour earlier in order to set up and get your boat in the water. We will head South about one mile to the Kellogg Creek entrance of Discovery Bay. This is an all-safe 5 mph area and it works well for both small and larger size watercraft. The outing will take place in rain or shine, but plan on a cold morning and the possibility of morning fog for a few hours (we hope the weather cooperates better than last year!)

A boat is required to participate in this trip. Boaters and non-boaters will need to make arrangements and get paired up before the outing.

Equipment: 8, 9 or 10 wt rod with Hi-Speed / High Density shooting heads. Lead core heads, Teeny 300, Rio Outbound or Mastery Custom Tip Express lines trimmed to match the rod all work well. The integrated style lines are easier to cast than lead core. Your leader is simply 5-6 ft of 15 - 20 lb mono (Maxima). Flies that simulate baitfish patterns such as 3-5 inch Clouser minnows, Flashtail Whistlers, Deceivers, etc. work well. The 2/0 chartreuse and white Clouser is a standard. Take a look at past newsletters for December and January of '11 and '12 for what has been successful. We will provide more information as we get closer to the outing and we can get more specific as the stripers keep move in, which usually starts around mid to late October. It is looking like a good season this year with lots of bait already arriving and being chased by hungry stripers!

10 pound Delta striper from 2011.
These fish are great fun on a fly rod.

Martin with a nice "Schoolie". These
guys put up a great fight too!

THE AUCTION IS COMING! THE AUCTION IS COMING!

Ron Dueltgen

The Silent Auction, coming up on April 3, 2014, is the main fund-raising event for our club. Proceeds go a long way towards financing our service projects, donations, and contributions to national organizations, as well as helping provide high quality, desirable items for our monthly raffle.

While we solicit and obtain lots of great items from vendors, fly shops, guides and resorts, we really depend on donations from TVFF members. At the most recent auction, member donations made up about 44% of all items (excluding flies) but accounted for about 58% of sales (including flies). We rely on members to donate new and used equipment, books and videos. Buddy trips and cabin access are both very popular items. Wine always sells well. And, especially, we need lots and lots of member-tied flies to add excitement (and revenue).

So, please start looking critically at your storehouse of fly fishing equipment to see what you can donate to the club. Maybe that rod you haven't used in a couple of years would be just the ticket for a beginning angler. And that pair of waders that has somehow gotten too small? Bring 'em!

Questions or comments? Contact Ron Dueltgen (rondueltgen@comcast.net or 925-449-0528.

Please Welcome our New Members to TVFF

2013 Steelhead Outing: Challenging Conditions, but Good Times – Bob McCollum

Mid-November found 16 TVFF members fishing the Trinity River for anadromous rainbow trout. Steelhead – the fish of a thousand casts. We fished a couple of weeks earlier this year, so the temperatures were much warmer than previous outings. Temperatures ran from the high 30's in the morning to the low 60's in the afternoons.

The lack of rain this year left us with low, clear water. At only 300 CFS, conditions on the Trinity were very challenging. There were fish in the river, but they were hunkered down in any lie that provides cover and food. Typically these were very difficult holding positions to fish; very unforgiving. Casts must be on the mark with drag-less drifts.

Despite these challenges, our group was of good spirit and met the challenges with the best of our abilities. Most of us hooked up and landed a few of these remarkable fish. The power and beauty of steelhead have us all longing for next season, hopefully under better conditions. We are planning to fish a couple of weeks later in hopes of ensuring more rain before our 2014 outing.

Our stalwart steelheaders celebrated our last evening with a feast at the La Grange restaurant.

All Aboard!!

Derrell Bridgman and Guide Jim Andras

Patrick "Paddy" Sullivan is hooked on TVFF

Dan Vargas is having a good time!

Richard and Ron in the beauty of the Trinity

Rob Vellinger plays a nice one

Russ George near the North Fork

Trevor George scores a nice steelhead

Matt Vargas with a 30 inch

Tom Vargas with a Big Bar wild steelhead

Bill Nevins with a fine buck

These pictures say it all-
STEELHEAD FISHING!

Striperfest 2013

Tom Vargas

On November 2nd President Daniel, Dan Vargas and myself participated in the 2013 Striperfest out of Sugar Barge Resort and Marina on Frank's Tract. We enjoyed a great day of fishing and brought about 30 fish to the boat. We only had one or two keeper size fish, but the ones we caught sure did pull hard! We had some great action in the early morning outgoing tide and then especially on the incoming tide in the afternoon.

We had a great BBQ rib dinner, everyone came home with something and Daniel finished off the lucky day by winning a new Sage 9 weight fly rod, perfect for the next outing! This is a great event that was started by Dan Blanton and has raised tens of thousands of dollars that are directed at protecting California's striped population and our water resource the fish need to sustain the wonderful Delta resource we have in our very own backyard.

Daniel with a hard fighting "schoolie"

Dan with one of his many fish

Tom with another "schoolie" during a hot streak

Daniel and Tom after a nice "double".

Member Spotlight on Dan Vargas *By Tom Vargas*

Q. How long have you been a club member?

A. Eight years, just joined on my own

Q. Do you currently or have you ever held an office in the club?

A. No

Q. What occupies your time other than fishing?

A. Computers, photography, duck hunting, snowboarding

Q. Classify yourself as a fly fisherman:

A. Beats the heck out of working.

B. I can't wait to wet a line.

C. I dream about fish & flies.

D. I need some serious help for my addiction.

A. C, I dream about fish and flies

Q. What is the fly rod set up you use for the majority of your fly fishing?

A. 6 weight Redington Super Sport and CD reel for steelhead and the Lower Sac and the surf

Q. What is your favorite species to fish for and why?

A. Steelhead. Big fish out of little rivers and when they jump especially!

Q. What body of water do you fish most often?

A. Delta stripers and the Trinity

Q. Do you consider yourself a dry fly or nymph fisherman?

A. Nymph and streamers for stripers

Q. Do you prefer fishing stillwater or streams?

A. Streams

Q. If you could only fish with one fly what would it be?

A. White and chartreus Clouser Minnow for stripers and the surf

Q. Do you have a fishing license for any states other than California?

A. No, not this year

The Tier's Bench:

JIM BROADBENT

For everyone involved in the **fly tying group** a reminder that the meeting will be on **Monday, December 2nd** at Christensen Middle School, 5757 Hagan Oaks Ave, Livermore, Ca, Room 406. This month we will be tying scuds and larva, getting familiar with rubber and plastics.

New *FliRaffle* at the Club Meetings

We are going to try a new and separate raffle in addition to the one we already are doing but specifically for Flies.

The rules are simple:

- Bring at least one fly, preferably one you have tied, to put in a bucket or a glass, or some kind of container. This can be any fly of your choice, but please don't make them your rejects. Remember the fishing gods will be watching what you put in and may retaliate on your next fishing trip if it's felt your flies weren't up to snuff!
- You can bring as many flies as you'd like to put into the container, BUT YOU GET ONLY ONE raffle ticket no matter how many flies you put into the bucket.
- Half of the raffle ticket goes to the person donating the fly / flies and the other half is put into a container specifically for the *FliRaffle*.
- The winner gets all the flies.

What a great way to add new flies to your collection and find a home for some of the excess flies you may have tied. Rules are subject to change at the whim of whoever is doing it.

Conservation Corner -TVFF Conservation Program

Derrell Bridgman

Scope: The Tri-Valley Fly Fishers is a “fly fishing” club, dedicated to: the promotion of, the enhancement of, and active participation in the sport of fly fishing. The club promotes education in all aspects of the sport for its current and potential new members. They are, for the most part, fly fishers, and not activists focused on controversial environmental issues, however, they understand and appreciate the value of preventing the steady decline in the quality of their fisheries. TVFF’s Conservation Program is dedicated to the protection and restoration of the fisheries in its area.

Overview: TVFF’s by-laws provide for a “Conservation Director” position, on its Board of Directors to provide direction for the clubs conservation activities. The director attempts to keep updated on the status of issues that impact the quality of local fisheries, and recommends appropriate conservation actions for the club to consider. The director also represents the clubs interests at conservation type meetings, workshops, etc.

The TVFF Conservation Program is based on identifying and participating in activities to resolve negative fisheries issues that are local to our area, and also supporting organizations that are involved in regional issues. Locally we actively support issues such as Alameda Creek Alliance’s effort to restore the one-time great anadromous fish runs in the Alameda Creek Watershed. We actively participate in local creek (and Arroyo) clean-up projects, and water quality monitoring.

Regional water management policies, contamination sources and habitat controls which pose threats to our fisheries are also a concern to our club members. TVFF actively supports several organizations that are dedicated to resolving problems and implementing restoration efforts throughout our area. TVFF currently supports (financially and/or active involvement) organization/groups such as, but not limited to the following:

Northern California & Nevada Council Federation of Fly Fishers (NCCFFF)
Federation of Fly Fishers (FFF)
California Department of Fish and Wildlife (CDFW)
California Trout
Trout Unlimited (TU)
Alameda Creek Alliance (ACA)
Alameda Creek Fisheries Restoration Workgroup (ACFRW)
California Sport Fishing Association (CSPA)
Restore The Delta
Zone 7 Water
San Francisco Public Utilities Commission (SFPUC)
East Bay Regional Parks District (EBRPD)
Livermore Area Recreation & Parks District (LARPD)

Activities: Within the last few years, TVFF members have been involved in problem resolution efforts and/or actively participated in multiple local and regional conservation efforts. Project examples consist of:

Alameda Creek watershed fish passage and habitat restoration projects.
Local Creek Clean-up efforts.
Creek Water Quality testing.
Water Flow and Temperature Requirements (for fish survival) in Alameda Creek Watershed.
Steelhead rescue (at the BART Weir) and relocation (to suitable upstream spawning locations).
Invasive Species (New Zealand Mud Snails) control project (Putah Creek)
Fish population monitoring (Calaveras Reservoir fish counts)
Agricultural runoff contamination control
Delta water diversion issues
Trinity River water diversion issues
Klamath River Dam Removal

continued on page 16

Conservation Corner *(Continued)*

- TVFF recognizes that the quality of our fisheries in the future is dependent on dedicated stewards. Those stewards will be developed from our children. We are convinced that one of the most effective ways of accomplishing this is by developing an appreciation and respect for the fish within those children while they are still young. We have developed a program that appears to be an effective way of accomplishing this task. TVFF's Trout-In-Classroom (TIC) has proven to be an excellent way to teach our kids to appreciate and respect our fish.
- The TIC program consists of TVFF members, participating school teachers, and the CDFW who partner in a program that permits the students to witness Rainbow Trout eggs hatch in a classroom aquarium and develop into small fish. The students monitor the fish's development, and participate in related lessons and classroom curriculum. They develop a strong bond with the fish then go on a field trip to a local reservoir where they bid them farewell and release them. Our program started approximately thirteen years ago and has involved a total of approximately 32,000 students during that time. Those students, and teachers alike, love the program. The kids develop a lot of good knowledge and strong respect for the fish. We hope they will remember this experience for years to come, and hopefully, some will develop a strong sense of "stewardship" for the fish and their environment.
- The TVFF TIC program is a part of an East Bay Area program that is sponsored by several Fly Fishing clubs or related organizations. This program was recognized as the best nationwide program of this type by the "American Fisheries Society" and granted a very prestigious award for "Excellence in Aquatic Education".
- **Growth:** Plans are being developed for TVFF's Conservation Program to include a fly fishing techniques program that would educate new members (and include present members) on fisheries habitat protection while they are enjoying the sport. Included would be the protection of "Redds", undercut banks, pollution control, invasive species control, etc.
- **Summary:** Fly fishing, as we know and enjoy today, is dependent on effective conservation efforts and TVFF is dedicated to this goal. We have been, and continue to, actively pursue efforts to ensure access to quality fly fishing venues. We recognize the value of supporting the efforts of other fishery related conservation organizations. We are dedicated to monitoring the political climate on issues that might impact the quality of our fisheries, and take appropriate action, as required to maintain a natural healthy fly fishing environment.

Bodegas Aguirre Winery & Vineyards

Specializing in Estate grown premium red wines, we are proud to present the fruit of the work our family started in 1995. We spared no effort or expense for our vines to produce low yields of the highest quality grapes that our Valley can grow. They were meticulously crafted into complex wines sure to please the most discriminating wine aficionados.

Please come and enjoy our signature Petite Syrah, Bordeaux varietals and special blends.

Don't Throw Away Your Old Fly Lines, Recycle Them

I am a Preschool Special Ed teacher and the floating fly line comes in handy for many projects that preschool children make: necklaces, lacing, hanging art, fishing poles.....I would be happy to collect it and give it away to other preschool teachers.

Dave or I attend the meetings pretty regularly; we could have the members bring it to the meetings?

Thanks for the consideration.

-Cathy Hiromoto
