## President's Message

### Daniel Kitts

Let me start by thanking everyone who has served on the TVFF Board of Directors (BOD) for the last year. A Special thank you goes to **Russ George** who for many years has done a great job as our Treasurer. The good news is that Russ's business has taken off keeping him busy so he will be leaving the BOD. The 2013 BOD has accomplished much for the club and set the direction for another good year. For the first time we have over 100 members, our finances are solid allowing us to support more donations and looking at expanding member programs, our education program has grown with the added clinics and classes, we've started a monthly fly tying group and we've had many good speakers and outings. Remember that the BOD member all volunteer their time to make **your** club the success it is so be sure to thank them all.

The new board to be installed at the February Pot Luck Installation dinner will consist of several new board members with **Marty Loomis** taking on Membership, **Roger Perry** Conservation and **Russ O'Brien** Speakers. Along with that several existing board members will be taking on new roles. The success of the club is not only up to the BOD but also to YOU. If you have any suggestions please feel free to either attend a BOD meeting or speak with one of the BOD members about it. This is a good time to think about whether you would like to become a member of the BOD next year. If there is some spot or role that interests you talk to the director in that position and see if you can "shadow" them or help in any way so you can better understand what the job entails.

Where OH Where is the rain! If things don't change soon it looks like it will be a tough year for the fisheries and any fishing you do may need to be done earlier in the season than normal. Take a look at the scheduled trips or think about Fish Meistering one and get signed up.

**President Daniel Kitts**

Remember to send your fishing pictures to the editor!

*Presidents message, continued from page 1*

Our major Fund Raiser, the Silent Auction, is coming up at the April 3<sup>rd</sup> meeting. This is our major fund raising event of the year and our donations are down from previous years. The proceeds raised from this event not only help us support programs for the club but also the donations we give to a variety of causes. What can you do to help?

Fly Tyers...START Tying and donate them to the auction  
Check out your equipment and if you have any that you don't use donate it, non-fishing items are also welcome  
If you frequent a restaurant ask them if they would like to donate something like a dinner for two or a gift certificate to cover part of a meal...might introduce a new customer to them

Have a favorite fishing spot you'd like to take a buddy along on...consider donating a buddy trip

Have some wine just sitting around...

Like to cook...how about doing a dinner for...

Donate a service

If you have any questions see **Ron Dueltgen** who is chairing the Auction Committee or **Don Gardner** who is putting the Fly donations together. And be sure to mark April 3<sup>rd</sup> on your calendar and **tell your friends about it. This is open to anyone who wants to come, bid on items and add to their toys.**

2014 Dues are Due...What a bargain at only \$35 for the year if you pay before the end of the February meeting.

***I am looking forward to seeing you all at the Installation Dinner on Thursday February 6<sup>th</sup>.***

***Daniel***

***"Only those become weary of angling who bring nothing to it but the idea of catching fish"***

Steelhead"*

## 1-Day Beginning Nymphing Clinic

Daniel Kitts and Martin Plotkin will be holding a 1-day, beginning Nymphing clinic on Monday, February 10; **also we are inviting anyone just interested in fishing to join us**

For those in the Clinic:

- Meet in Livermore @ 9:30AM
- Expect to arrive at the Stanislaus parking area about 10:30 where we will first suit-up and discuss how to rig our gear.
- We will then stroll down to the river and discuss selecting flies and how to indicator Nymph.
- After the discussion we will break into 1 and 2 person teams with an instructor and practice indicator Nymphing and try hooking some fish.
- About 1PM we will all meet up at Knights Ferry Park for lunch.
- After lunch we will discuss and demonstrate other Nymphing technique(s).
- Then we will again break into teams and fish.
- About 5:30 we will all meet up at Knights ferry and start back, stopping along the way for dinner.
- Plan on arriving back in Livermore between 8 and 10 PM.

COST:

- Gas share (about \$5 to \$10)
- Dinner

For more information contact Martin.

# OUTINGS AND EVENTS

## Bart Hughes

Happy New Year and welcome to a new fishing season! I'm excited to be taking over this role and look forward to helping to facilitate some exciting fishing 2014 adventures. I know for me outings were a wonderful way for me to get integrated into the club and get to know people on a more personal level. You'll learn some interesting, funny and informative things from your fellow fishing enthusiasts over a camp fire, beer, etc.

Please consider being a Fishmeister for one of the events. I know from personal experience that it is a very easy thing to do, plus it gives you the opportunity to have influence on the next location for fishing fun for the club. Here are some great options to consider:

- February – Yuba River (favorite time of guide Clay Hash)
- March – Yuba, Kings River for the famous March Brown hatch
- April – Pyramid Lake (monsters being caught this year already!), Hot Creek
- June – Upper Sacramento – given likely low water conditions this year, you'll want to get your river fishing in early
- July/August – Sierra pack trips

•Lots of interesting options! At the February meeting, I will be introducing a new and hopefully intriguing pilot program to incent increased participation from some of our newer members.

Below is the current tentative/probably outing schedule based on best information available:

<u>DATE</u>	<u>EVENT / LOCATION</u>	<u>FISHMEISTERS</u>
FEBRUARY 10	BEGINNING NYMPHING - STANISLAUS	MARTIN PLOTKIN DANIEL KITTS
MARCH 29 DATE CHANGE	KISTLER BASS PONDS	HAL WILSON
APRIL 3	SILENT AUCTION	RON DUELTGEN
MAY 10-11**	ADVANCED NYMPHING CLINIC	MARTIN PLOTKIN
MAY 17 - 18**	ADVANCED NYMPHING CLINIC	MARTIN PLOTKIN
TBD***	THIRD NYMPHING CLINIC	MARTIN PLOTKIN
JUNE 20-22	DAMSELFLIES AT LAKE DAVIS	HAL WILSON

\*Christensen Middle School, 5757 Hagan Oaks Ave, Livermore, Room 406

\*\* Class full

\*\*\* Advance Registration Required

# Kistler Calling ! !

## Hal Wilson

As announced last month, (and for years previously about this time of the year) TVFF has reserved the three ponds or small lakes for a day at the Kistler cattle ranch, approximately 18 miles north of Oakdale, California.

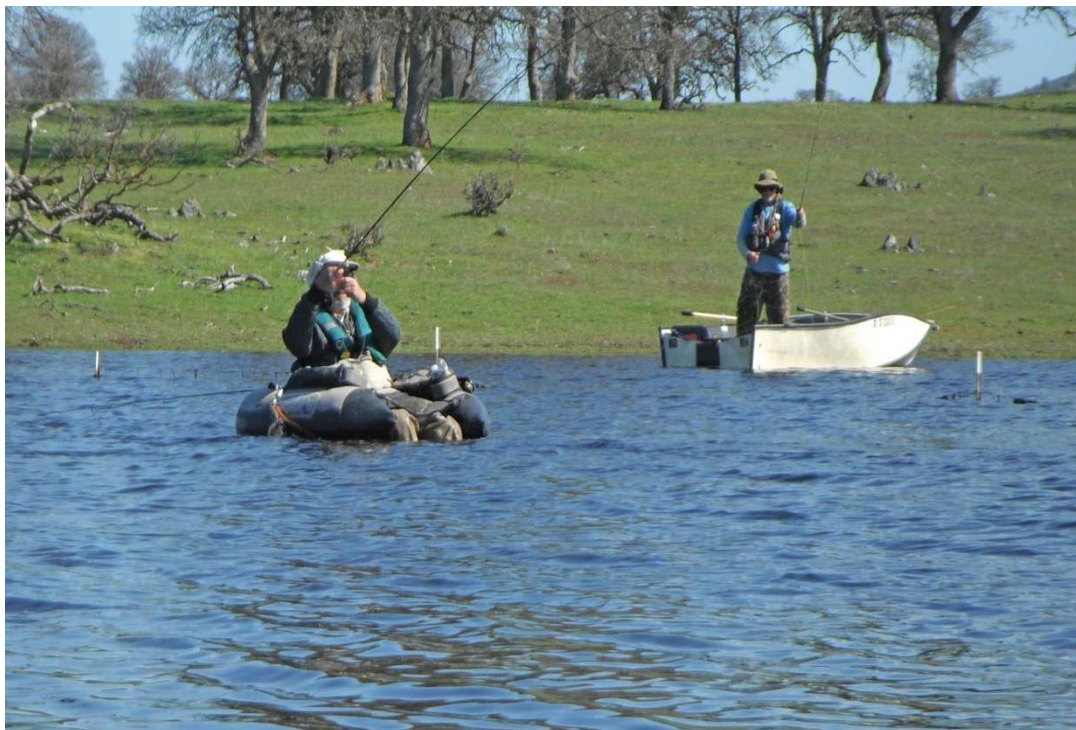

Members have enjoyed catching and releasing panfish and bass up to two pounds in these ponds in spring time, and since our date this years is **March 29**, that's spring time.

Equipment advised includes a rod, reel, floating and /or intermediate line (floating most used) bass bugs or wooly buggers. Derrell uses Humpies almost exclusively with good results. Most of us use floating devices, float tubes or pontoons. Don Gardner uses a Porta-bote with great success. **Personal Flotation Devices always advised.** Motors are NOT allowed, either gas or electric. Some anglers cast from shore or wade a few feet into the lake to cast.

We currently have 12 TVFF members paid up, with five more on the "I want to go, but I don't have the money right now" list. We may have a few members of the Oakland Casting club join us as well. The fee is \$20 per angler. Bring your own lunch and drinks.

More details, including directions and a contact list for those who may want to car-pool will be provided to those who sign up. If you have questions before signing up, please call me.

## THE AUCTION IS COMING!

Ron Dueltgen

## 2014 TVFF Auction: You can help!

The annual TVFF Auction is set for Thursday, April 3, and looks like it is shaping up to be a good one. There will be plenty of opportunity to bid on fishing gear, outdoors equipment, flies, buddy trips, fishing/vacation cabins, wine and more. And, the auction offers a chance for members (and friends) to get involved in a great club activity by volunteering to help make this event a success.

You can help set up and/or clean up, assist with refreshments, help get bidders registered and sell them bucket raffle tickets, register winning bids and tally up in the "back room," and so forth. An auction has lots of moving parts! The good news is that members have already signed up to be in charge of these jobs, so additional volunteers will be able to help and will still have plenty of time to bid on auction items.

Contact Ron Dueltgen (925-449-0528 or [rondueltgen@comcast.net](mailto:rondueltgen@comcast.net)) to find your spot on the auction team.

## Video Library

**Richard Tarbell**

### **NEW Fly Fishing DVD's - Take a minute - Have a look!**

Stop over at the DVD table for a look at the newest DVD's and look over the list 150 DVD's available titles in the library.

I know how members enjoy live speaker presentation night for the information, location tips, equipment and rigging education, and skills from the experienced anglers. Well the DVD's are set in the same style. The DVD's have the advantage for you to select the subject of interest and the time in your day to enjoy the presentation.

## **"The Buddy Trip "**

### **A Great Auction Bargain !**

#### **Russ O'Brien**

What does a hammer. A wing nut. A 9 ft 6 wt rod. A "Thingamabobber". A #12 hare's ear nymph. A #16 Copper John and a "Porta-Bote" and Beardsley Reservoir have in common ? A Buddy Trip hosted by Don Gardner.

Last year was my first Tri-Valley Fly Fisher "Silent Auction". I wasn't quite sure what to expect so I brought my check book and some cash thinking I might find a few bargains. And I did. I added hand tied flies by TVFF artists to my fly box. Purchased a wader boot puller.....However, little did I realize that the best purchase I made that night was a "Buddy Trip" for two days fishing in the Pinecrest area of Hwy 108 offered by Don Gardner. Included with the trip was two nights at Don's townhouse in Leland Meadows near Beardsley Reservoir. A weekend was selected in early June and after making the two plus hour drive we arrived at Don's townhouse, unloaded our gear and got ready for fishing the next morning.....then went out for a great dinner at a nearby restaurant. To say the two days of fishing was outstanding is an understatement. Although I had some memorable fly fishing experiences under my belt, I had not fished Beardsley Reservoir and I quickly learned that Don is a great teacher. Patient. Fun. Easy Going. Relaxed. He walked me through the set up for indicator fishing using two flies. Over two days we each caught over 30 hard fighting beautiful rainbows and an occasional brown trout ranging 12-20 inches.

I almost forgot. One of the best surprises was that each day I got to learn how to help assemble Don's "Porta-Bote".....what a blast.....when was the last time you assembled a boat with wing nuts ?.....and then went fly fishing on a beautiful mountain reservoir ? What FUN !

**"I can't wait for this year's auction. I'm bidding on Don's "Buddy Trip" again.....and hopefully a few more".**

# Trinity River Steel

## Tom Vargas

Bob McCollum and I headed for Weaverville and the LaGrange Restaurant and arrived just in time to watch the 49er Seahawk game on Sunday, January 19<sup>th</sup>. We should have taken our time!

We fished on Monday and Tuesday with guides Jeff Parker Dave Neal. We had two days of tough fishing by Trinity River standards, but we are probably spoiled by the great resource we have to our North. Over the two days we boated 4 fish and had 6 hook-ups, which would be good steelhead fishing in most places!

I was lucky enough to boat a wild 30 inch, 10 pound buck on Tuesday morning, which made my trip. Weather was beautiful with cold mornings in the low 20's and ice in our rod guides and afternoon temperatures in the high 50's with lots of sunshine. The best fishing was in the morning and late afternoons.

## A Lower Yuba Steelhead Heartbreak !

Russ O'Brien

This was my second fishing trip in 2014. Marty Loomis and I fished the Lower Yuba River on Wednesday, January 22nd as we took advantage of guide Frank Hasting's January Special for Tri-Valley Fly Fishers. We met our guide at the Hwy 20 bridge a little before 8:00 am and soon started our full day float. Frank explained that the river was lower than usual for this time of year, about 725 cfs, but quite fish able.....very clear, steady flows.....lots of great water.....good runs, deep pools, plenty of character and fish habitat.....we hooked fish throughout the day, landed several 10-15 inch rainbows and one steelhead of about 18".....and then towards the end of the day, Marty hooked a **HUGE** steelhead.....we estimate 30+ inches.....and after a 20-25 minute battle, this day the fish God was on the Steelhead's side..... as Marty brought the monster to the net, one quick turn by the fish and the leader broke and it got away.....our guide Frank says it was the largest steelhead he has ever seen in the Yuba in over 25 years of fishing there.

Needless to say we were all disappointed with not netting the monster, but Marty did a great job playing the fish and it seemed like the fish was tired and ready for the net.....and we saw enough of the Steelhead to see it was a beauty. We had a great day fishing....lots of action.....we fished both nymphs and dries....at times up to three nymphs below our indicator and even threw a few Skwala dries at rising fish.....only two came up to check out Marty's fly. The fish were not rising often, but with the warm mild temps and weather.....Skwalas have been showing up on previous drifts. The other nice thing....for the first couple of hours we had the river to ourselves.....and only two other drift boats and a couple of fly fishers on pontoon boats shared the five mile stretch of river with us. It was a peaceful, pleasant day.

Although Frank's Special only ran through the end of January.....his 2014 daily rate of \$400 for two is still a bargain. So if you want a great day of fishing on a beautiful river with plenty of chances to hook into one of the famous Yuba steelhead.....give Frank a call at (530) 518-6952.....You won't be disappointed.

## North Island of New Zealand

Wynn Smith

I recently returned from a fishing trip to the North Island of New Zealand. We fished rivers draining into Lake Taupo, an enormous lake formed in the crater of a volcano. The trout were big and strong, but not overly interested in what we drifted over their noses. As frustrating as that became, it was still a fabulous experience.

## Member Spotlight on Tom Fessenden *By Tom Vargas*

**Q. How long have you been a club member?**

**A.** Little over Five years

**Q. Do you currently or have you ever held an office in the club?**

**A.** Yes, Treasurer, Membership, Member at Large

**Q. What occupies your time other than fishing?**

**A.** Travel, Gardening, Keeping track of things

**Q. Classify yourself as a fly fisherman:**

**A.** Beats the heck out of working.

**B.** I can't wait to wet a line.

**C.** I dream about fish & flies.

**D.** I need some serious help for my addiction.

**A.** Fishing more important than catching

**Q. What is the fly rod set up you use for the majority of your fly fishing?**

**A.** 5 weight Scott rod, floating line, 5x or 6x leader

**Q. What is your favorite species to fish for and why?**

**A.** Rainbow or brown trout, but any trout will do!

**Q. What body of water do you fish most often?**

**A.** Woods lake off of Hwy 88

**Q. Do you consider yourself a dry fly or nymph fisherman?**

**A.** Mostly dry, but Hal Wilson may be converting me.

**Q. Do you prefer fishing stillwater or streams?**

**A.** Still water, I can't wade.

**Q. If you could only fish with one fly what would it be?**

**A.** Probably a Black gnat

**Q. Do you have a fishing license for any states other than California?**

**A.** Yes, Washington and Montana

## The Tier's Bench:

JIM BROADBENT

The next meeting of the Fly Tying group will be Monday February 3<sup>rd</sup> at the Christensen Middle School at 5757 Hagan Oaks Ave in Livermore starting at 7:00 PM. For this meeting we will be tying the Jay Fair Wiggle-tail. This is a great fly for numerous species including largemouth bass (Kessler Ranch in March) . It is an easy tie so we should have time for a couple of variations of Jays pattern.

*"Our mission is to provide you with a total experience, not just a fishing trip."*

## **Conservation Corner – New Zealand Mudsnaills**

### **Roger Perry**

I intend to comment on New Zealand mudsnails this month, but I also wanted to mention the presentation by California Natural Resources Secretary John Laird. At the time of this writing, John is scheduled to speak at the Dublin City Council Chambers this Thursday (Jan 30) at 6PM on the California Water Action Plan (the delta bypass tunnels). I plan to attend and hope to be able to comment in next month's newsletter.

I thought I would comment on New Zealand Mudsnaills, some of the problems they pose and some of the things we can do to minimize their spread.

The New Zealand mudsnail is a threat to our waters. It competes with native invertebrates for food and habitat and has a detrimental impact on fish populations and vegetation. Mudsnaills can tolerate a wide range of habitats, including brackish water. Mudsnaills are easily transported to new habitats by recreationists because they readily attach to waders, boot soles and other equipment. They can live for weeks in damp cool conditions.

#### ***To prevent the transfer of mudsnails, the following is recommended:***

1. If possible, keep several changes of field gear for use in different bodies of water.
2. Clean all gear before leaving a site, scrubbing with cleaned and a stiff-bristled scrub brush and rinsing with water, preferable high-pressure. This is often the simplest and most effective for prevention.
3. Inspect gear before it is packed for transport. Visible traces of sand, mud, gravel and plant fragments are signs that gear has not been properly cleaned and mudsnails may have been retained.
4. Select a treatment method in addition to scrubbing and rinsing if mudsnails are present or suspected to be present. The two most common treatment methods are physical and chemical:
  - A. Physical methods:
    - i. Freeze your gear for a minimum of 4 hours at a temperature of 26° F or less.
    - ii. Soak gear in a bath of hot water (at least 120° F) for 10 minutes. This method is not recommended for Gortex.
    - iii. Dry your gear before reuse. A drying time of at least 48 hours under low humidity is recommended to remove all pockets of dampness.
  - B. Chemical methods:
    - i. There are many chemical disinfectants available; however these may adversely affect gear. Choose one compatible with your equipment.

## TVFF HELPS PROVIDE FISH SANCTUARY

**Hal Wilson**

Under the direction of Fisheries Biologist Pete Alexander and other East Bay Regional Park District personnel, five members of TVFF and about 90 other conservation and ecologically concerned individuals gathered at Quarry Lakes Regional Park in Fremont on January 4 to provide habitat for newly spawned fish in the lake.

After a quick Continental breakfast, the Park district personnel explained the task before us. They had assembled over 1000 former Christmas trees at the lake, and staked out lengths of heavy chain on the currently dry lake bed. Our job was to move trees to the chain and lay the butts across the chain with the tree tops pointing away, alternating the direction the tips pointed. Lengths of heavy nylon cord were then used to tie the butts to the chain.

As the winter rains come and the lake fills, the trees will provide structure for insects to hatch in and for newly hatched fish to use for protection from predators. In addition to TVFF folks, the work force consisted of Boy Scout troops, 4H club members and middle school classes. The job was done in less than three hours and we were treated to a hot lunch.

We were told that due to Water District restrictions this will not be done at Del Valle, but we look forward to helping with this great project in other locations as called upon.

Marty Loomis

Hal Wilson  
Derrell Bridgman

Daniel Kitts

George de Cossio

## Education

### Kent McCammon

#### Education Update – Insect Display Planned in 2014

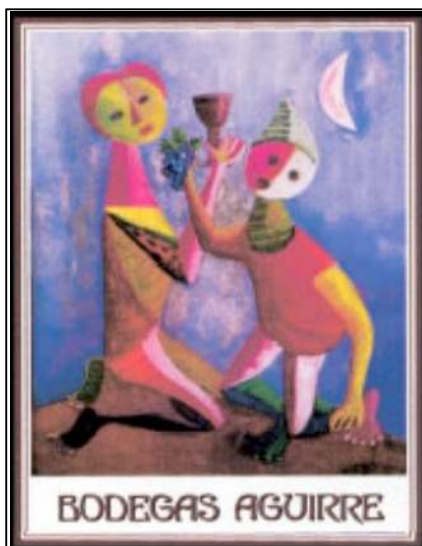

We are preparing to launch a new educational feature for the club with a chance for members of all ages to get hands-on learning. We will be building up a display of insects collected by our members as a education tool for those new to flyfishing to learn entomology and a chance for our experts to help identify collected aquatic insects at the meetings as samples are returned and identified. Collection vials and instructions will become available in March. Volunteers welcome to help design and construct a portable display showing insects in vials, ID labels, make siene nets, and the tie the flies that match the collected insects. Contact Kent McCammon for details and if you want to help.

#### Fly Fishing Film Festival is showing at Pleasanton Flyfishing Show on Feb 21<sup>st</sup>.

As part of the Pleasanton Flyfishing Show at the Pleasanton Fairgrounds is the screening of The International Fly Fishing Film Festival (IF4). One night only, Friday, February 21 at 6:30. Tickets are \$15 at the door or \$10 in advance or with a paid Fly Fishing Show admission for that day. The Show website has updated information here: <http://www.flyfishingshow.com/Pleasanton.html> or you can view an exciting trailer for 2014 show here at the IF4 website, <http://flyfilmfest.com/IF4/>

The Film Festival features multiple short films about flyfishing in different locations around the world and feature well-known flyfishers that will surely get your blood flowing and excited for the sport we love. Even a teenager or spouse may like this high-energy film, so bring them along too. Before the Film showing, some 'happy hour' music is planned and should be able to grab some food and drink the vendors as the Show winds down to a 6pm close. For those getting off work, you may still be required to pay to park if the parking attendants have stuck around after the Show ends at 6pm. Note: 2 different companies are producing Flyfishing Film Festivals now, the other version is being shown around the Bay Area this year often sponsored by Cal Trout (Orinda, Palo Alto, Sacramento). Some of us saw this Festival in Redding last October with everyone enjoying this screening that included a McCloud River short film for local interest. Here is the Information on this other tour.

<http://www.flyfilmtour.com/>

#### Bodegas Aguirre Winery & Vineyards

Specializing in Estate grown premium red wines, we are proud to present the fruit of the work our family started in 1995. We spared no effort or expense for our vines to produce low yields of the highest quality grapes that our Valley can grow. They were meticulously crafted into complex wines sure to please the most discriminating wine aficionados.

Please come and enjoy our signature Petite Syrah, Bordeaux varietals and special blends.

## TVFF Dues for 2014 are due!

Tom Fessenden

- ***TVFF club dues for this coming year are \$40 (\$35 if paid on or before the club meeting on February 6, 2014). If you snooze, you loose!*** A membership covers you and all family members living at home. All are encouraged to participate in club outings however, liability release signatures are required of those 18 or over.
- Checks or cash can be given to our treasurer, Tom Fessenden at any regular club meeting.
- Checks made out to TVFF can also be mailed to :

## Don't Throw Away Your Old Fly Lines, Recycle Them

I am a Preschool Special Ed teacher and the floating fly line comes in handy for many projects that preschool children make: necklaces, lacing, hanging art, fishing poles.....I would be happy to collect it and give it away to other preschool teachers.

Dave or I attend the meetings pretty regularly; we could have the members bring it to the meetings?

Thanks for the consideration.

-Cathy Hiromoto

We meet at the Livermore/Pleasanton Rod and Gun Club (directions below) on the first Thursday of every month except July and August at 7:00 PM.

### Directions to

Livermore/Pleasanton Rod and Gun Club: 4000 Dagnino Road, Livermore, California.

Exit Highway 580 on North Livermore Avenue

Proceed North on North Livermore Avenue to May School Road (~2.5 miles).

Turn right onto May School Road and proceed to stop sign at intersection with Dagnino Road (~1 mile).

Entrance to Rod and Gun Club is directly across intersection
